

The future of unified endpoint management starts here.

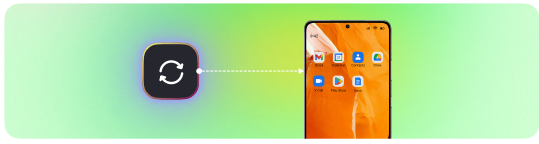

One UEM to power up your IT operations.

Get complete visibility, set policies, and simplify how you manage endpoints. Bring Windows, macOS, iOS, Android, Linux, and ChromeOS into one unified view.

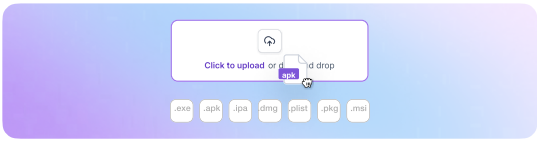

- ✓ Comprehensive single-pane architecture
- ✓ Instant provisioning and de-provisioning
- ✓ Over-the-air policy application
- ✓ Unified visibility across OS and device types
- ✓ Audit-ready reporting and logging

Essentials for smart device management.

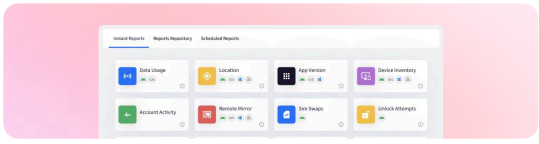

OS and Third-Party App Updates

Scalefusion takes care of OS and third-party app updates so you don't have to. No more manual rollouts, just fully patched, secure devices. Ensure every device and application runs the latest.

Application Management

Push apps across your device fleet instantly and remotely. Choose apps from the Play Store, App Store, PWAs, or enterprise app store. You can also create an App Catalog with only the apps you need.

Remote Support

Remotely diagnose and resolve any device errors. Take screenshots, create tickets, enable VoIP calling, and transfer files to the devices. No need for in-person visits or delays, just instant support.

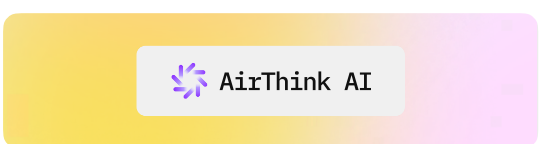

Location Tracking & Geofencing

Track the location of your endpoints in real-time. Create virtual geofences and get alerts when your endpoints move in or out of the set boundary.

Automation & Workflows

Schedule workflows and automate your daily tasks to run on autopilot.

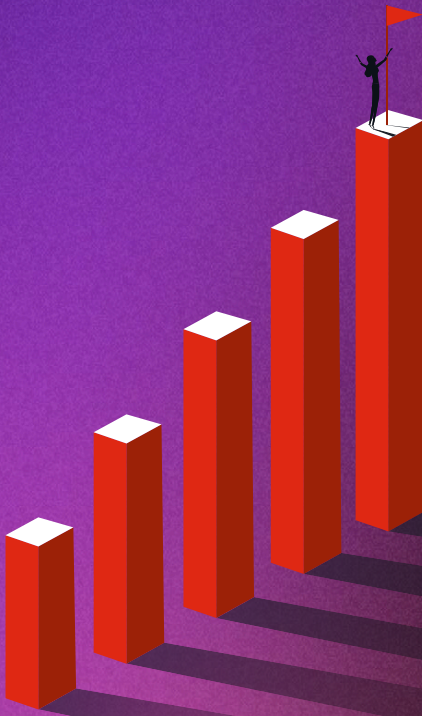

AirThink AI

Complex coding is out of the game. Leverage industry's first GPT-powered AI to write and validate scripts for you.

Nothing less than the best solution offering.

- ✓ End-to-end encryption for secure data transmission
- ✓ 50+ Integrations and OEMs
- ✓ Multi-OS management to accommodate all devices
- ✓ Scalable architecture to support growing teams
- ✓ Error-free execution with Maker-Checker
- ✓ Granular policy customization for different user groups

Why choose Scalefusion?

One Agent. Everything covered

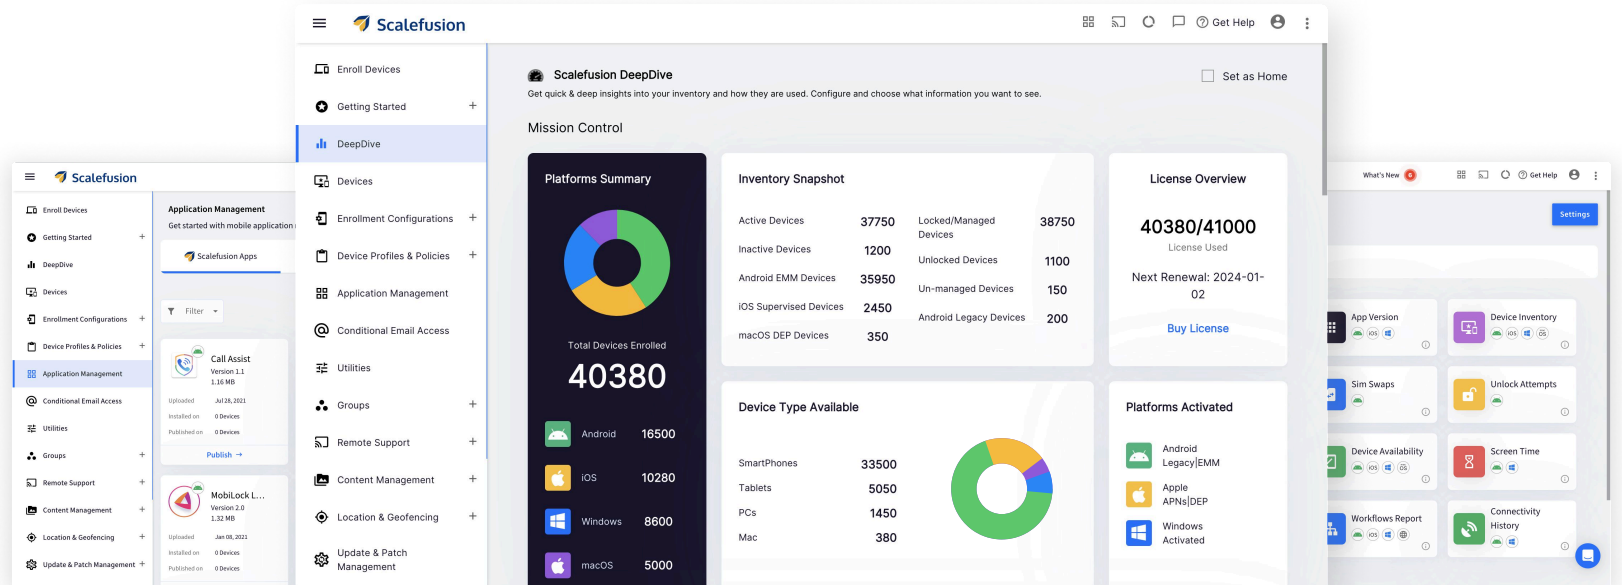

Transform enterprise management powered by one agent. Manage and secure endpoints seamlessly while enabling zero-trust access — all without relying on outdated, fragmented tools.

Premium complimentary support

24x6 chat support to hands-on training and migration assistance, we've got you covered. Plus, a dedicated technical account manager — because you deserve nothing less.

Single pane of glass

Manage everything, access compliance reports, and set up with ease — all from a dashboard that's as intuitive as it is powerful.

UEM for diverse endpoints, modern businesses.
