

Get Full Ctrl Of Your Windows Devices

Experience MDM Powered By Simplicity

Scalefusion for Business is Here

With Scalefusion, you can easily manage and monitor your Windows endpoints from a centralized dashboard, streamlining your management process and increasing efficiency along with robust security.

Super Powered Features For The Win

OS Update & Third Party App Patching

Remotely push OS Updates and keep all apps updated and protected against vulnerabilities with our automated third-party app patching.

Windows App Catalog

Get the latest versions of third-party apps and install them directly from the Scalefusion dashboard. No juggling between multiple sources for app installations.

Location Tracking & Geofencing

Enhance security with device location tracking and set virtual boundaries with geofencing. Don't let your enterprise devices be out of your sight.

Dynamic Scripting & Script Scheduling

Create dynamic scripts with custom properties tailored to specific devices or users such as usernames, device names or more. Automate tasks with Scheduled Scripts.

Unattended Remote Control

Mirror Windows devices remotely and take control to resolve device issues without the end user's presence. Extend rapid fixes and create support tickets on integrated ITSM platforms.

Security

Push security policies and access control to protect corporate data on company-owned and employee-owned devices. Get alerts for security and compliance.

Micro Features, Maximum Impact

- Conditional Email Access
- Certificate Management
- Email and Exchange Settings
- Network Settings
- Bitlocker Encryption
- Reports & Workflows
- Dynamic Groups
- Intel vPro AMT Integration

Enhanced Engagement with Kiosk Mode

Windows Multi App Kiosk Mode

Only your choice of apps can run on the device. Make sure there is no misuse of devices for non-business purposes.

Windows Single App Kiosk Mode

Lock Windows devices to a single application, blocking the rest. Works perfectly for POS or digital signages.

Custom Management

Extend fully-equipped devices to your employees with limited control over app downloads and usage.

The Scalefusion Difference

Dashboard Designed For You

Our clutter-free dashboard makes it extremely easy to manage your device's endpoints making day-to-day operations simple.

24/6 Free Chat Support

Where you can reach out to our team, who will answer all our queries matter what time zone you're in.

Smooth Migration & Setup

We offer complete migration assistance to help you move from your current solution to Scalefusion MDM with confidence and ease.

No One Gets Through Your Windows
